

Environmental Policy Statement

AVC Weeeco Ltd WEEE Light Ltd are companies incorporated to lessen the impact of the WEEE Directive on UK Businesses through the introduction of Producer Compliance and WEEE Care and Compliance Services the adhere to Environmental Sustainability, Corporate/Social Responsibility and Cost Effectiveness.

The companies are aware of their responsibilities to minimise the environmental impact of their services and activities both in the implementation of a WEEE Policy and during WEEE collections on client's sites. The companies understand that good environmental management reduces costs and contributes towards future sales.

AVC Weeeco Ltd and WEEE Light Ltd will:

Comply with all relevant regulatory requirements and environmental legislation.

Reduce the environmental impact of and prevent pollution from their WEEE Care and Compliance Service Level Agreements.

Operate in a socially responsible and ethical manner in their dealings with customers, suppliers, contractors and any other interested parties.

Set objectives and targets to continually improve their environmental performance and monitor our progress through measurement, inspection audit and review.

Publish this policy to the general public, potential and existing clients through conventional marketing methods and on the company's website.

Ensure that all employees are aware of the policy, suitably trained to meet their environmental responsibilities and are involved in the achievement of our environmental objectives.

Provide adequate resources to establish, document, implement and maintain an environmental management system and continually improve its effectiveness to reduce the impact of all our services and activities up on the environment.

It is our intent that the management systems alone will, at a minimum, satisfy the requirements of our customers as well as all compliant regulatory requirements. The Systems are compliant with ISO14001:2015.

Responsibility for establishing and implementing this policy is carried by the Business Compliance Manager and this responsibility is discharged by the Chief Executive Officer. The companies are committed to providing sufficient resources to place their environmental performance on par with the best practice in the waste industry.

This policy and the arrangements for its implementation will be reviewed periodically or following the introduction of new services and activities, new material and/or when environmental compliance relevant to the companies is introduced or amended.
